

Issue #	Task #	Associated User Story	Task Title	Task Description	🔍 Priority	🔍 Risk	👤 Responsible	🔗 Dependencies	🏁 Status
78	9.1	US#9	Design meal planner data model	Define JSON structure for weekly meal plans (username, week, day, meal type, recipe id). Store data in JSON file.	Medium	Medium	Martin Miskovski, Chrisjan Alejandro	None	Done
80	9.2	US#9	Create weekly planner UI grid	Create a weekly grid layout (Mon–Sun × breakfast/lunch/dinner/snack). Display empty slots for meals.	Medium	Low	Martin Miskovski	9.1	Done
81	9.3	US#9	Implement backend for meal plan creation	Create backend route to save weekly meal plan entries to JSON file. Validate inputs.	Medium	High	Chrisjan Alejandro	9.1	Done
82	9.4	US#9	Display weekly meal plan	Load and display stored meal plan data inside the weekly planner grid.	Low	Low	Chrisjan Alejandro	9.1 and 9.2	Done
83	10.1	US#10	Add recipe selection UI	Add dropdown or selection modal to choose a recipe from user's recipe list.	Medium	Low	Kepler Paul-Emile	9.2	Done
84	10.2	US#10	Assign recipe to meal slot	Allow user to click a planner cell and assign selected recipe to that day and meal type.	Medium	Medium	Chrisjan Alejandro	10.1	Done
85	10.3	US#10	Implement backend assignment logic	Create backend route to store recipe assignment in weekly planner JSON.	Medium	High	Chrisjan Alejandro	9.3	Done
86	10.4	US#10	Update planner UI after assignment	Update UI dynamically after recipe is assigned to a meal slot.	Low	Low	Chrisjan Alejandro	10.2, 10.3	Done
87	11.1	US#11	Add edit/remove controls	Add edit and remove buttons for meal slots in planner.	Medium	Low	Marc Urbano	9.4	Done
88	11.2	US#11	Implement meal removal backend	Create backend logic to remove recipe assignment from weekly planner JSON.	Medium	Medium	Marc Urbano	9.3	Done
89	11.3	US#11	Update UI after meal edit/remove	Update planner UI to reflect removed or edited meals immediately.	Low	Low	Marc Urbano	11.1, 11.2	Done
90	12.1	US#12	Detect duplicate recipe assignments	Implement validation logic to check if recipe already exists in the weekly plan.	Medium	Medium	Ethan Elkaim	10.3	Done
91	12.2	US#12	Display duplicate warning	Display error message when user tries to add duplicate recipe in same week.	Low	Low	Ethan Elkaim	12.1	Done
92	12.3	US#12	Block duplicate submission	Prevent saving duplicate recipe assignment to database.	Medium	Medium	Ethan Elkaim	12.1	Done
110	13.1	US#13	Add "Watch Tutorial" button in modal	Add a button inside the recipe modal labeled "Watch Tutorial".	Medium	Low	Kadio Paul-Philippe Ehui	9.4	Done
111	13.2	US#13	Implement YouTube redirect logic	Create logic to redirect user to YouTube search page using recipe name.	Medium	Low	Kadio Paul-Philippe Ehui	13.1	Done
112	13.3	US#13	Pass recipe name dynamically	Ensure recipe name is correctly passed from modal to redirect URL.	Low	Low	Kadio Paul-Philippe Ehui	13.1	Done
